OneVision opens subsidiary in India, continuing its successful global expansion

International software company commences operations in its new offices in Gurgaon, Haryana

Regensburg, Germany – September 13th, 2010 – OneVision, a global provider of prepress and premedia software solutions to the printing and publishing industries, today announced the opening of a wholly owned subsidiary in India: the new company, OneVision Software India Pvt. Ltd., has its premises at the German Centre in Gurgaon, Haryana, about 30 miles southwest of New Delhi.

After establishing the Singapore-based subsidiary OneVision Software (Asia Pacific) Pte Ltd. end of September 2009, it marks the second opening of an international office within less than a year.

OneVision has appointed Gyan Prakash as Chief Operating Officer of the new subsidiary. Prakash has over 20 years of experience within the publishing industry. Before joining OneVision, he served as senior executive for Quark from 2001 to 2010 where he was appointed Vice President for Asia, Middle East and Africa from 2004.

“India is one of the world’s largest and fastest growing markets for newspapers” said Hussein Khalil, CEO of OneVision Software AG. “And analysts consider the Indian newspaper market as one of the most challenging markets worldwide. Furthermore, the magazine market in India is expected to grow strongly as well. With our local presence in this important market, we are

able to better serve our existing customers and to expand our position within the region significantly.”

OneVision already has a strong customer base within the region with publishers like the Times of India, Sakal Newspapers, Pragati Offset Pvt. Ltd, and many other renowned users.

Presence at WAN IFRA India

OneVision will exhibit its efficiency solutions at the WAN-IFRA India 2010. The annual conference will be held in Jaipur on September 15-16.

OneVision’s software solutions aim for time savings, increase of productivity, cost reduction and quality enhancement, thus enabling newspaper, magazine and corporate publishers to meet the business challenges in professional publishing. The products of OneVision are known for being easy to use and for their high degree of flexibility.

About OneVision

OneVision’s state-of-the-art prepress software is used every day by the world’s largest newspapers and magazines, leading publishers, commercial printers and companies in the emerging area of on-demand publishing. By streamlining workflows and automating production processes, OneVision’s software solutions allow organizations to save time, reduce costs, optimize resources and ensure the highest possible level of quality for published and printed materials. Headquartered in Germany and with locations in the U.S., United Kingdom, France, Brazil, Singapore and now India, OneVision continues to bring new solutions to companies worldwide.
